

MONDAY MORNING, MAY 1.

ARRIVALS AT NEW ORLEANS FROM NORTHERN PORTS
April 21—Ship Niagara, 18 days from New York....
Windsor, 18 days from Boston.... Element from Bos-
ton, via Havana, 12th ult.... Austria, 19 days from
Boston.... Charles Carroll, 20 days from Boston.

Mr. Fithian, the Daguerrotypist, is again in the city and will remain two weeks. On his former visit he took quite a number of likenesses, the best ever executed here. He returns at the invitation of a number of our citizens, and will of course find constant employment for the short time he will remain. We tender him our thanks for files of Cincinnati and Louisville papers.

Numbers of country merchants are now in the city purchasing their spring supplies—finding it more desirable and convenient than that of the East.—Cincinnati Commercial.

And numbers of country merchants that formerly purchased their spring supplies in your city, Mr. Commercial, now find this market "more desirable and convenient" than either Cincinnati or any place East of that. Notwithstanding the hard times, more goods have been received and sold here the present season so far, than during the whole of last, and country merchants still continue to arrive. They will buy where they can buy cheapest.

The citizens of Cincinnati, we perceive by the papers, are luxuriating in ice-cream (colored of course) and ice-cream, while our mornings here make fires and winter clothing feel quite comfortable. This is just the weather for age and fever and people should take care of themselves, and—the doctors.

Somebody says—"Of all poor devils an ignorant man left alone is the most to be pitied." So we think; and if there are any in this community who are likely to be caught in that fix, if they have not done so already, we advise them to subscribe for the Daily Journal at once. "It is not good for Man to be alone," and the Journal is a first rate companion. Try it.

The greenest thing we have met with in our market this season was the chap who declined to take our Daily Journal because it was so large he had not time to read it! We admit our daily is large, but it doesn't begin to be as large as a *di-ee*—in that man's eyes.

EVANSVILLE WHARF.—We learn from one of the Contractors for building the wharf, that the grading of the bank will not be commenced until after the June freshet. They are now busy hauling rock for the gutters and fastenings, some hundreds perch of stone having already been deposited at the foot of Main street. After the June rise the work will be pushed ahead with the utmost vigor, and a portion of the wharf completed in time for the fall business.

We see by the papers that the merchants of St. Louis are sending Corn to Tennessee and Bacon to Cincinnati. This, we should say, is "taking coals to Newcastle."

COUNTERFEIT.—One of the Franklin (Columbus) bank of the Ohio State Bank, altered to five's have made their appearance. We were shown one of them on Saturday. They are well executed and hard to detect. Look out.

It is said that a letter has been received by a gentleman in New Orleans from Santa Anna, written previous to his leaving Mexico, saying that there was no prospect that the treaty would be ratified by the Mexican Government, and that the war was only commencing.

Our old friend Nick. Fix treated us to a bottle of Spruce the other day, the best we ever drank. He intends to keep a constant supply during the summer. Of course he'll be patronized.

JOHN DUNKEY.—We have received the pictorial John Dunkey, together with all the numbers of that most excellent paper up to the present time, and we intend to file them away for the benefit of those who—but no matter, we shall file them. John says he don't charge printers the first cent for exchanging. Judging from this we should say he is not half as big an *ass* as some others we could mention. We are making up a club for the Dunkey—who wishes to subscribe!

THIRTIETH CONGRESS.

WASHINGTON, April 27.

SENATE.

The Senate to-day, ordered 100 copies of Hickey's edition of the constitution of the U. S., to be presented to Mr. Valtmore, in the name of the Senate.

Mr. Clayton offered a resolution seeking information about the public armories.

The House bill for the transportation of the foreign mail was reported with amendments.

Mr. Badger's resolution to purchase the portrait of Mr. Brown, of Gen. Taylor, after sundry amendments being adopted, was laid on the table.

The California claims bill was taken up and discussed, when, on motion, the Senate adjourned.

HOUSE OF REPRESENTATIVES.

In the House, the first business in order was the reports of the Standing Committees.

The correspondence of Gen. Scott, &c., was taken up.

Mr. Clingman charged that Lieut. Marcy had been using Mr. Henly for the purpose of palming off upon the House and the country a deliberate falsehood, by denying the suppression of any of Gen. Scott's letters, which had now been produced by the resolution of the House, and calling for the same. He assailed Marcy, and defended Gen. Scott. During the debate, the administration was charged with being afraid to trust the House with the above letters because they feared Mexico might learn their contents, yet, at the same time, these letters or their contents, had been transmitted to Gen. Pillow, to be used in the Court of Inquiry.

Mr. Stephens moved that all the war correspondence be printed together, and 10,000 copies be ordered for the House.

Which motion was adopted and the House adjourned.

CINCINNATI, April 28, S. P. M.

A large quantity of powder in William's fire works establishment, on Vine above Fifth street, exploded at 10 o'clock to-day.

The building was entirely destroyed by the explosion and the fire that was originated by the accident.

By this accident two men were killed, and three badly wounded.

Mr. Williams and sister escaped without much injury by jumping from out of the window.

The telegraph wire beyond Zanesville, Ohio is down.

The river is falling.

PITTSBURGH, April 27, P. M.

There is 39 inches water in the channel and falling.

CINCINNATI, April 28, P. M.
